📍 Dhaka, Bangladesh

## Developer's Statement

While others struggled with initial programming concepts, I intuitively embraced coding challenges from day one, coding is how I naturally enjoy transforming ideas into functioning solutions. What I lack in professional experience, I compensate with technical intuition and genuine passion. I'm seeking an opportunity where my potential and capabilities will be recognized, creating immediate value while allowing me to grow and contribute alongside the company I serve.

## Skills

- **Frontend:** JavaScript, React.js, HTML, CSS, TailwindCSS
- **State Management:** Redux Toolkit
- **Auth & Data-Storage:** Firebase
- **Version Control:** Git, GitHub
- **Others:** Responsive Design, Basic Illustration Skills

## Developer's Vision

I have a multitude of ideas, visions, and concepts, and they mean nothing without execution. My ultimate goal is to become a solid full-stack developer, bringing my ideas to life through impactful solutions, whether that's applications, software, or any other innovation that can make a difference. I want to channel my talents and potential into creating solutions that not only solve problems but also contribute to a better world.

## Portfolio

- ### E-Commerce Project

  Built with ReactJS, TailwindCSS, Redux Toolkit, and Firebase, this is my first project where I focused on core functionalities like user authentication, data storage, and state management. It's designed to provide a seamless shopping experience with secure login and smooth product browsing.

- ### My Portfolio Website

  The design of this portfolio features a unique theme that combines two distinct patterns, styles, and elements. The contrast between bold, dynamic features and clean, minimalistic touches reflects my versatility as a developer while ensuring a smooth and engaging user experience.

- Portfolio in active development, Engineering new projects to demonstrate expanded technical depth and innovative problem-solving approaches.

## Education

**University of Asia Pacific, Bangladesh**
- Bachelor of Science in Computer Science & Engineering (Paused)

Thank you for your time. I welcome you to explore my portfolio (tishrabon.github.io) and connect via LinkedIn to discuss exciting opportunities. Looking forward to the possibility of collaborating on impactful projects.
